We offer for sale in Istenehy, in a quiet side street, with a valid building permit, a very impressive family house, ready to be built. The property in every respect will be one of the most modern and well-planned properties in the area. The design still offers a lot of flexibility and possibilities, with the possibility of multi-generational detached houses, 2-3 or 4-apartment apartment buildings. The property will be built to the same quality and design as the visual plans. The project will also include a swimming pool, a fitted kitchen and a 3-car garage.
